**K-3000**

Super Buflex K-3000(Black)

**K-2000**

Super Buflex K-2000(Green)

## Dry Buflex Pad & BASander KO-202

Dry Buflex Hand Pad  
Part No.9710060

Dry Buflex Pad with velour  
Part No.9710061 (applicable  
also for KO-202)

**BASander KO-202BA Part No.9100202B**

**SUPER Buflex** , a unique, dry sanding integrates an ultra-flexible latex abrasive sheet and a exclusive soft pad that cuts fast with a shallow scratch pattern which is easier to polish than grit 3000 or finer. Due to it's flexibility, Buflex can polish perfectly without altering original paint texture. Extremely uniform and shallow scratch pattern are the main reasons why Buflex system can produce beautiful finishes **in much less time**. Now, you can achieve **“Zero Water”** system upto Super Buflex !

## Key Advantage 1

- \* Reduce Buffing Time by 50% or more!
- \* "Zero Water" upto 3000 (or finer)!

## Key Advantage 2

- \* Immaculate Finishes (High Gloss), with Original Paint Texture unaltered!

**1. Color Sanding**

(B) Dustnib or Imperfections removed by conventional paper

**2. Super Buflex**

(C) Blending Part

(B) Scratches of conventional paper are easily removed by Super Buflex

(C) Sanding only with Super Buflex (Blending Part)

**3. Polished**

※Lighting effect being adjusted for a better viewing angle.

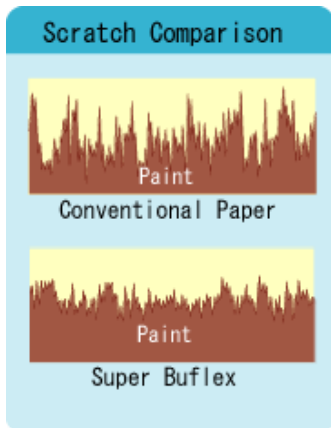

**【Texture Conditions】**

(A) Original paint texture (where no sanding was applied)

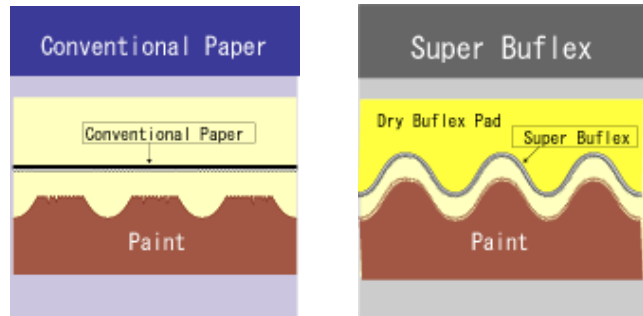

(B) Color Sanding (Dustnib removal) with conventional paper eliminated most of original paint texture.

(C) Sanding with Super Buflex retained the original paint texture.

### Shallow & Uniform Scratches

### Extremely Flexible Contact

Due to its extremely **shallow, uniform** scratch pattern and **flexible** contact, you can achieve beautiful finishes in **much less time**.

**SUPER Buflex** Green Black

Recommendable for  
Waterborne & High Solid Clear!
